

Charles Ghost

The shape conjures up stools of the 1800s and the line of the legs is rounded and slightly upturned, an icon of the classic high stool. Charles Ghost is constructed from a single block of transparent polycarbonate which makes it indestructible and allows it to survive anywhere. It is available in three different heights: from the stool for occasional and informal sessions to that for the kitchen bench or bar counter. It is just as suited to closed surroundings as to open spaces and it embraces every kind of furnishing and every culture.
